## Introduction

Rapise<sup>™</sup> is a next generation software test automation tool that leverages the power of open architecture to improve application quality and reduce time to market.

This installation guide outlines how to setup a working installation of Rapise including the installation of any dependencies and prerequisites. It also provides information on obtaining an evaluation or production license key from Inflectra so that you can use the software.

It assumes a basic understanding of how to setup and administer a Windows XP<sup>®</sup>, Windows Vista<sup>®</sup> or Windows7<sup>®</sup> workstation, and also assumes that you have access to a valid Administrator level account that can install software.

For information on how to use the features of Rapise please refer to either the *Rapise Quick Start Guide* or the *Rapise User Guide* instead.

# 1. Installing Rapise

This section outlines how to prepare your system for installation of Rapise, and how to actually install the software using the provided installation package.

The first sub-section will outline what hardware and software configurations are supported and the exact installation sequence for Windows XP, Windows Vista or Windows 7. The second sub-section will explain how to load the Rapise software onto the computer, and discuss common problems and solutions.

Processor:         Intel® or AMD® x86 or x64 compatible processor	
Memory: 1 GB, 2 GB recommended	
Disk Space: 500 MB	
<b>Display:</b> XGA (1024 x 768)	
Operating System: Microsoft Windows XP 32-bit	
Microsoft Windows XP 64-bit	
Microsoft Windows Vista 32-bit	
Microsoft Windows Vista 64-bit	
Microsoft Windows 7 32-bit	
Microsoft Windows 7 64-bit	
Microsoft Windows Server 2003 32-bit	
Microsoft Windows Server 2003 64-bit	
Microsoft Windows Server 2008 32-bit	
Microsoft Windows Server 2008 64-bit	
Service Packs: Windows Server 2008 SP1	
Windows Server 2003 SP2	
Windows Vista SP1	
Windows XP Professional SP3	
Web Browser:         Internet Explorer 6.0+	
Mozilla Firefox 3.0+	
Google Chrome 5.0+	
Other Components: .NET Framework 3.5 SP1	
Microsoft Excel 2003+ (optional)	

The minimum hardware and software requirements for running the Rapise are:

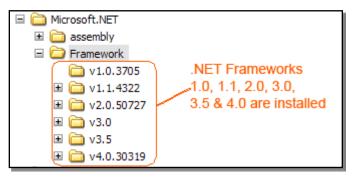

## 1.1. System Prerequisites

Assuming that you have already installed the appropriate version of Microsoft Windows onto your computer (or that has been pre-installed for you), you need to then make sure that the various prerequisites have been correctly added to your installation before trying to install Rapise. The Rapise installer will check to ensure that the various prerequisites are in place, and will abort the installation if any are missing, indicating to you what action needs to be taken.

#### 1.1.1. Microsoft .NET 3.5 SP1

On Windows Vista, Windows 7 and Windows 2008 Server installations, Microsoft .NET Framework v3.5 SP1 is usually installed as part of the factory configuration, whereas on earlier operating systems, you might need to manually add the .NET 3.5 SP1 components to the factory configuration.

To see which version of the Microsoft .NET framework installed, open up Windows Explorer® and navigate to <u>C:\WINDOWS\Microsoft.NET\Framework</u> and then the subfolders listed will indicate which version(s) of the framework you have installed:

To install the .NET Framework, launch Internet Explorer and enter the URL:

<u>http://www.microsoft.com/netframework</u>. From this page there will be links to download and install the appropriate version of the .NET Framework (version 3.5 SP1 at time of writing). Click on the option to download and install the .NET Framework, and follow the instructions provided. Once you have completed the install, verify that the installation was successful by looking in the "Administrative Tools" folder as illustrated above. You also need to make sure that .NET 3.5 SP1 has been installed if necessary.

#### 1.1.2. Microsoft Visual C++ 2005 SP1

The installer package for this component will be listed in the "My Downloads" section of the Customer Area of the Inflectra website. This is the same place where you would have downloaded the main Rapise installer package. Please download this prerequisite from our website and double-click on it to install the Microsoft Visual C++ 2005 SP1 package.

#### 1.1.3. Microsoft Primary Interoperability Assemblies 2005

The installer package for this component will be listed in the "My Downloads" section of the Customer Area of the Inflectra website. This is the same place where you would have downloaded the main Rapise installer package. Please download this prerequisite from our website and double-click on it to install the Microsoft Primary Interoperability Assemblies 2005 package.

### 1.2. Installing the Software

Now that all the prerequisites have been correctly installed, you are now ready to install Rapise onto your system. To perform the installation, you will need the installation package downloaded from the Inflectra<sup>®</sup> website.

To start the installation, double-click on the Rapise installation package (it will have a filename of the form RapiseInstaller-vX.Y.msi), and the Windows Installer will display the following dialog box:

Click the <Next> button to start the installation wizard. The next page of the installation wizard will display a list of all the required pre-requisites and whether the installer could find them or not:

🔡 Rapise Setup	
Verifying Prerequisites Checking to make sure prerequisites installed	Rapise
The list of prerequisites is displayed below. Please fix any errors with the installation. Please click on the details button to learn h	
<ul> <li>Microsoft Visual C++ 2005 Service Pack 1 Runtime</li> <li>Microsoft Primary Interoperability Assemblies 2005</li> </ul>	Details Details
Refresh	Ignore
Back	Next Cancel

If any of the prerequisites were not correctly installed, the installer will display a red cross icon next to the missing component(s). If this happens, please click on the [Details] button and the appropriate component will be downloaded from our website. You will be asked if you want to install the item. Click the button to install the component. Once all the prerequisites have been installed, click on Refresh the restart the installer again:

erifying Prerequisites		Rapis
Checking to make sure prerequisites in	stalled	nup S
The list of prerequisites is displayed be		
with the installation. Please click on the	e details button to learn	how to correct.
Microsoft Visual C++ 2005 Serv	ice Pack 1 Runtime	Details
📀 Microsoft Primary Interoperabili	y Assemblies 2005	Details
	Refresh	Ignore

If for any reason you have the prerequisite installed but the installer was not able to find it (this can occasionally happen on certain environments), click the <lgnore> button to proceed with the installation.

Once the prerequisites have been correctly installed, clicking <Next> will bring you to the next page in the installation wizard:

😸 Rapise Setup 💼 📼	
End-User License Agreement Please read the following license agreement carefully	je <sup>°</sup>
End User License Agreement	^
INFLECTRA SOFTWARE END USER LICENSE AGREEMENT	
IMPORTANT: THIS SOFTWARE END USER LICENSE AGREEMENT ("EULA") IS A LEGAL AGREEMENT BETWEEN YOU AND INFLECTRA. READ IT CAREFULLY BEFORE COMPLETING THE INSTALLATION PROCESS AND USING THE SOFTWARE. IT PROVIDES A LICENSE TO USE THE SOFTWARE AND CONTAINS WARRANTY INFORMATION AND LIABILITY DISCLAIMERS. BY INSTALLING AND LISING THE SOFTWARE, YOU ARE CONFIRMING.	Ŧ
Print Back Next Canc	el

The next screen in the installation wizard outlines the Inflectra End User License Agreement (EULA). Please read this carefully as it describes the legal contract between you – the user of the software – and Inflectra<sup>®</sup> Corporation, the developer and publisher. Once you have read the agreement and understood your rights and obligations, select the checkbox marked "I accept the terms in the License Agreement" and click the <Next> button.

The following screen will be displayed:

🙀 Rapise Setup				
Custom Setup Select the way you want features to be installed	Rapise			
Click the icons in the tree below to change the way features will be installed.				
Rapise         Image: Repise IDE         Image: Spira Integration         This feature requires 1027KB on your hard drive.				
	Browse			
Reset Disk Usage	Back Next Cancel			

We generally recommend that you install all the components (include the IDE and Spira Integration).

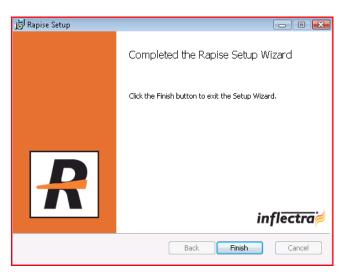

If you are installing the application on a remote computer that will be just launching tests using RapiseLauncher (managed by SpiraTest) then you can deselect the IDE feature. If you are not using SpiraTest and want to remove the SpiraTest icons from Rapise, you can deselect the "Spira Integration" feature.

Click the <Next> button to go to the next page in the installation wizard:

😸 Rapise Setup			
Ready to install Rapise		Ra	plse
Click Install to begin the installat installation settings. Click Cance		iew or change any of y	vour
	Back	Install	Cancel

Click the <Install> button to actually begin the process of installing Rapise onto your system. If you are installing Rapise onto Windows Vista or Windows7, then you may be prompted by the Windows User Access Control (UAC) security system to confirm that you want to install a new piece of software. Click the option that confirms you want to proceed with the install.

The installer will then display a progress bar that gradually fills as the installation proceeds. Once the installation is complete, the following message will be displayed:

Congratulations! You have successfully installed Rapise onto your system.

You should now have a Rapise shortcut icon added to your Windows Desktop and if you click on Start > Program Files > Inflectra > Rapise, you should see the new Rapise program group:

# 2. Activating Rapise

Once you have successfully installed Rapise, you will need to activate it with a license key (either a temporary evaluation key or a permanent production key). This section describes the process for activating your copy of Rapise as well as how to perform updates to the license key and potentially move it to another computer.

## 2.1. Getting Your Activation Code

When you first launch Rapise after installation, it will display the following dialog box:

👻 Inflectra Activation Manager	
Product Activation	Rapise
<ul> <li>Activat</li> </ul>	vation Code: e Online Activation
Please, enter activation code. You need an Internet connection to Activ choose Offline Activation.	rate Online instantly. If you are not connected to Internet
	K Back Finish Cancel

You should now enter the alphanumeric activation code from the Customer Area of the Inflectra website (the same page that you downloaded the installation package from). It will be displayed in the "My Licenses" section of the webpage. An example page is shown below:

My Licenses				
This is where you can retrieve the license keys for any software you have purchased, together with those for any product updates: Fixed-User Licenses				
Product	Activation Code	License Key	Expiration	
Rapise	DMO1109231151403958	(Activate)		
Rapise	DMO1109301651558523	(Activate)		
Rapise	SDM1109231246484092	(Activate)		

There are two kinds of activation code:

- Evaluation Activation Codes these start with the letters "DMO"
- Production Activation Codes these start with the letters "SDM"

You should enter the appropriate activation code into the Rapise activation wizard and choose the option to either activate online or offline. If you are connected to the Internet, online activation is easier. If you are not connected to the Internet (e.g. working in a secure environment), then you will need to use the offline activation option.

The following sections will explain how each of the options work:

### 2.2. Activating Online

To use online activation, make sure you are connected to the Internet, enter the activation code, choose "Activate Online" and click the <Next> button:

👻 Inflectra Activation M	mager 💽
Product Activati	on <b>Rapise</b>
	Enter Activation Code: DMD1110031641337532 Activate Online Offline Activation
Please, enter activation c You need an Internet con choose Offline Activation.	de. ection to Activate Online instantly. If you are not connected to Internet
	< Back Finish Cancel

The activation system will contact our activation server, process the activation code and activate the license. The application will start automatically and if you visit the Customer Area of our website, you will see that it is listed as activated, with a license key displayed:

My Licenses				
This is where you can retrieve the license keys for any software you have purchased, together with those for any product updates:				
Fixed-User Licenses				
Product	Activation Code	License Key	Expiration	
Rapise	DMO1110031641337532		11/28/2011	
Rapise	DMO1110031641337532		11/28/2011	

## 2.3. Activating Offline

To use offline activation, enter the activation code, choose "Activate Offline" and click the <Next> button:

Inflectra Activation M Product Activat	-	Rapise
	Enter Activation Code:	
	DM01110031641337532	
	Activate Online	
	<ul> <li>Offline Activation</li> </ul>	
Please, enter activation o You need an Internet cor choose Offline Activation	nection to Activate Online instantly.	If you are not connected to Internet
	< Back	Next > Cancel

This will bring up the Offline Activation screen:

😚 Inflectra Activation Manager	
Offline Activation	Rapise
	et and visit nd move it to this computer.
Step 3: Open .CDM file Open	
Please, follow three simple steps and then press Finish.	
< Back F	inish Cancel

Click on the [Save] button to save the Rapise.LIC file to your hard drive.

Copy across the Rapise.LIC file to a computer that has Internet access and open up the Customer Area of our website:

My Licenses			
This is where any product u	you can retrieve the license keys fo pdates:	or any software you have purch	ased, together with those for
Fixed-User L	icenses		
Product	Activation Code	License Key	Expiration
Rapise	DMO1109231151403958	(Activate)	
Rapise	DMO1109301651558523	(Activate)	
Rapise	SDM1109231246484092	(Activate)	

Click on the Activate link which will take you to the Offline Activation part of our website:

Upload LIC File			
located the file, click	owse] button and then locate the .LIC file for t k the [Activate] button to go ahead and activa e page where you can download the .CDM file	te the product	. If successful, you will return to
	DMO1110031641337532		
Locate .LIC File: (	C:\Temp\Rapise.LIC	Browse	
	Cancel Activate		
	ional questions? s questions are answered in our <u>FAQs</u> . If you e contact us at <u>sales@inflectra.com</u> .	ı have any que	estions about product licensing

Click on the [Browse] button and navigate to the place where the Rapise.LIC file is stored. Then click on the [Activate] button to begin the activation process. Assuming that the License file is valid, the website will activate the license and take you back to the Customer Area where the license key will be displayed:

his is where ny product i i <b>xed-User l</b>	updates:	ys for any software you have purch	nased, together with those to
Product	Activation Code	License Key	Expiration

Click on the License Key hyperlink and you will be prompted to save the Rapise.CDM file to your hard drive. Save this file and then copy it across to the computer that has Rapise installed. Now on the Offline Activation screen:

😚 Inflectra Activation Manager	×
Offline Activation Rapis	<b>e</b> <sup>*</sup>
Step 1: Save .LIC file     Save       Step 2: Take .LIC file to a computer connected to Internet and visit       http://inflectra.com/CustomerArea     Obtain .CDM file and move it to this computer.       Step 3: Open .CDM file     Open	
Please, follow three simple steps and then press Finish.	
< Back Finish Cancel	

Click the Step 3 [Open] button and browse to the Rapise.CDM file. Once you have the file selected, click on the [Finish] button to complete the activation. Assuming that the Rapise.CDM file is valid, the application will start.

If you have any problems activating your installation, please go to <u>https://www.inflectra.com/Support</u> and contact Inflectra customer support and they will help you resolve your problem.

### 2.4. Upgrading from Demo License

If you have installed a demonstration license, when the expiration date is reached the software will stop working and prompt to you purchase a commercial license. To purchase the commercial license, go to <a href="http://www.inflectra.com/Rapise">http://www.inflectra.com/Rapise</a> and click on the appropriate Purchase link to obtain a commercial production license.

Once you have purchased the license your Customer Area will display a new activation code. Simply start up Rapise, enter the new activation code and follow the process described in section 2.2 or 2.3.

If you want to upgrade your license **before** the demonstration license is expired, you need to click on the **Activation** button in the Help section of the Rapise Test ribbon:

Open 🏾 Save to Spira Save As Save Gopen Test from Spira	Record/Learn	No Debugging   Level 1 (Minimal)	Play	Spy Options	Help @ HelpIndex Activation % About
	Recording & Learning	Debugging	Executing		Help

This will bring up the Activation dialog box:

Inflectra Activation Mar	nager 🗆 🖾
Activation Status: Expiration Date:	Activated, Multi User Perpetual
Enter Activation Co	de Deactivate

Click on the [Enter Activation Code] button and then follow the steps in 2.3 or 2.4 to activate the product with the new production license.

### 2.5. Transferring to Another Computer

Sometimes you need to transfer your Rapise license from one computer to another, or the computer it's installed on needs to be rebuilt. In either case, it's important that you first deactivate the product from the current computer, otherwise you will be prevented from activating the product on the new / rebuilt computer.

To deactivate your current installation, you need to click on the **Activation** button in the Help section of the Rapise Test ribbon:

🛄 🗁 Open 🔗 Save to Spira		No Debugging 👻		🔵 🍓 🌁 Find in Files	🍌 🕅 Search Help 📮 Start Page
Save As	Record/Learn	Level 1 (Minimal)	Play	Spy Options	Help Index Activation
Open Test from Spira	Necord/ Learn		riay	spy options	About
File	Recording & Learning				Help

This will bring up the Activation dialog box:

Inflectra Activation Man	ager 🗆 🖾 🔀
Activation Status: Expiration Date:	Activated, Multi User Perpetual
Enter Activation Cod	de Deactivate

Click on the [Deactivate] button and activation system will contact our activation server, process the deactivation code and deactivate the license. If you visit the Customer Area of our website, you will see that it is listed as deactivated, with the option to activate it now available:

ly Licenses This is where any product u F <b>ixed-User L</b>		r any software you have purch	ased, together with those for
Product	Activation Code	License Key	Expiration
Rapise	DMO1109231151403958	(Activate)	
Rapise	DMO1109301651558523	(Activate)	
Rapise	SDM1109231246484092	(Activate)	

If you have any problems deactivating your installation, please go to <u>https://www.inflectra.com/Support</u> and contact Inflectra customer support and they will help you resolve your problem.
